

Please Response to the 7 Survey Questions

1. Information about your farm, such as type of production (e.g., cattle, dairy, swine, vegetables ...) and number of animals/acres.

2. What are your main job duties on the farm (feeding, hauling, carrying, lifting, ...).

3. What everyday tools and equipment are used on your farm(s)?

4. When using a tool or equipment, what adjustments do you need to make to prevent injury or make the tool/equipment easier to use?

5. What are the 5- 10 issues or complaints of the current tools or equipment that you use.

6. Have you or others on your farm been injured due to poorly designed tools and equipment? If yes, please provide some details about how injury happened and how we can improve tools.

7. List 2-3 dream tools/equipment that you would love to have to help you.
