Speaker Bio

Craig Kincaid

Craig Kincaid is a local farmer from the Pullman/Colfax area with deep roots in the Palouse region. After graduating from Washington State University in 2007, he began farming and has since cultivated an operation focused on wheat, canola, and pulses. Craig has always sought ways to differentiate his farm from conventional commodity crops and has been dedicated to exploring innovative agricultural practices.

In his talk, Craig will discuss the challenges, rewards, and lessons learned from moving towards organic practices and how it has impacted both the farm's sustainability and productivity.
