

11th Annual Crops & Soils Field Day

“There’s Something Growing On Around Here”
Thursday, July 26, 2018, 10:00 a.m. to 3:30 p.m.

Join us at Borderview Research Farm on July 26 for our UVM Extension Northwest Crops and Soils 11th Annual Field Day. Receive up-to-date information on our research, as well as see many research plots and experiments.

Blake Vince will share his experiences with no-till and cover cropping in an afternoon session. Blake is a 5th generation farmer from Merlin, Ontario. He works alongside his father and uncle and they currently produce corn, soybeans, and winter wheat on 1300 acres. The Vince family started no-tilling in 1983 and today they are using cover crops in various capacities.

The morning will include a tour of the research trials and other afternoon sessions will include perennial forage management, pollinators, hemp irrigation, and malt barley and hop quality. We will also have innovative equipment on display.

We will have sponsor exhibits and our Tasting Tent vendors include All Souls Tortilleria, Butterworks Farm and Mill River Brewing. Kingdom Creamery will be there with delicious ice cream too!

To request a disability-related accommodation to participate in this program, please contact Susan Brouillette at 802-524-6501 or 1-800-639-2130 or susan.brouillette@uvm.edu by **July 5, 2018** so we may assist you.

Registration starts at 9:15 a.m.
Farm tour starts promptly at 10:00 a.m.
