- 29 Southern Nevada Basin and Range
- 30 Mojave Desert Basin and Range
- 31 Colorado Desert and Imperial Valley

● Sample Points

Sample Point Description

Fecal sample were collected from animals during 1998-2003 and analyzed using the Animal Nutrition Lab (GANLab). Analysis provided data on percent of dietary crude protein (CP) and energy, digestible organic matter (DOM), Nitrogen (N), and phosphorous (P). Results were used in the Nutritional Balance Analysis (NUTBAL) software program to assist producers to better understand diet quality and animal condition.
