

Fig. 1. Example of lab experiment results: Bb = *B. bassiana* Ma= *M. anisopliae*.

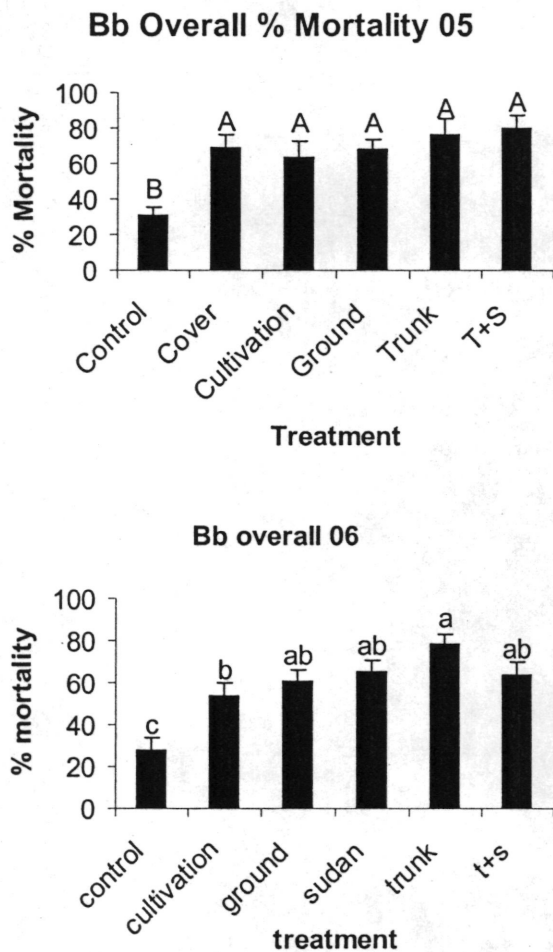

Fig. 2. Field experiments with different application methods of *B. bassiana* (2005 & 2006). T+S = trunk application UV screen; cover = cover crop (Sudan grass).

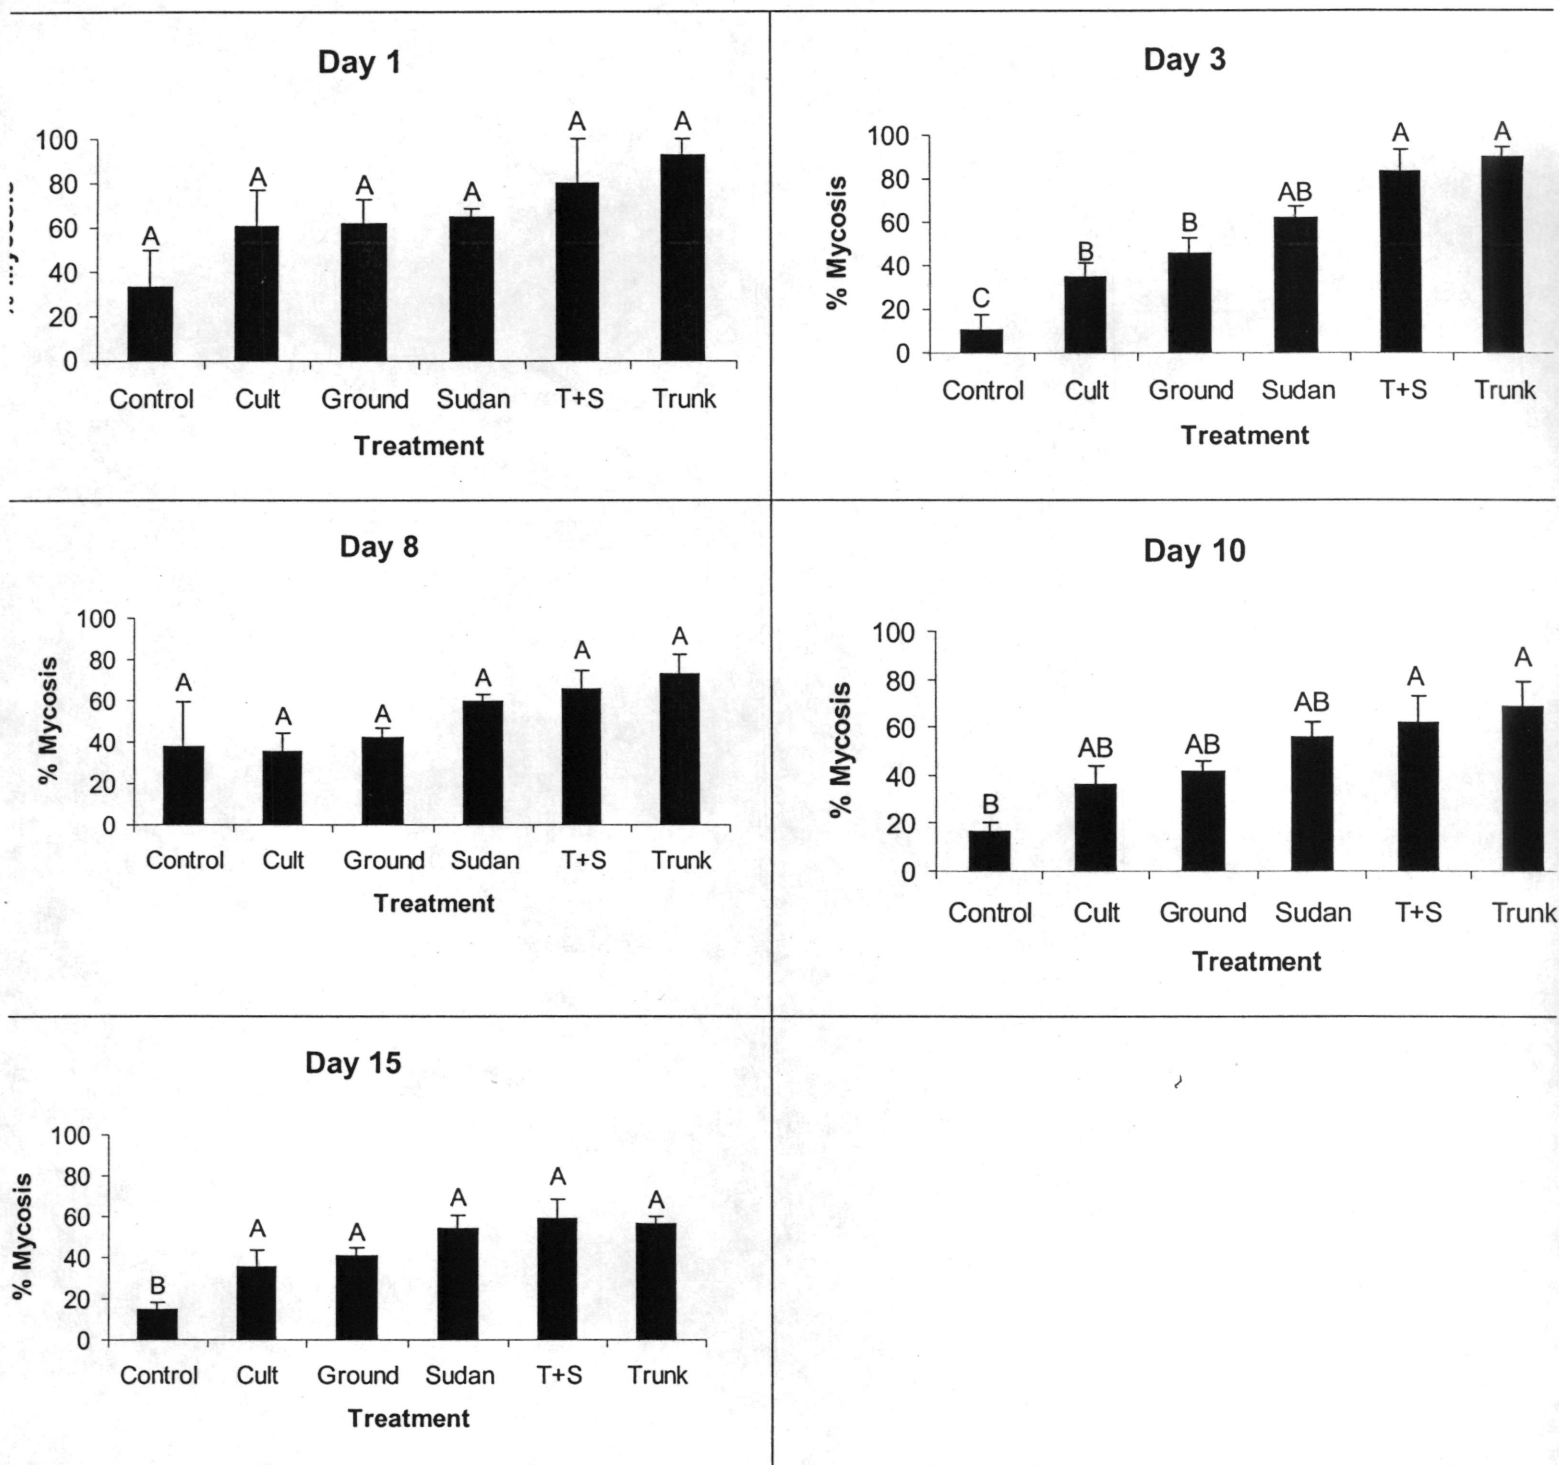

Fig. 3.  
2006 *B. bassiana* cumulative mycosis

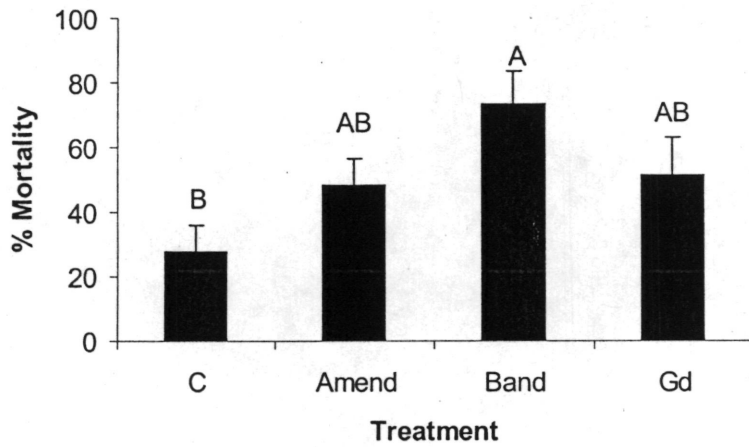

Fig. 4. 2006 Pecan weevil mortality following field application of *M. anisopliae*. Amend = ground application with compost amendment, Gd = ground, Band = trunk band application.

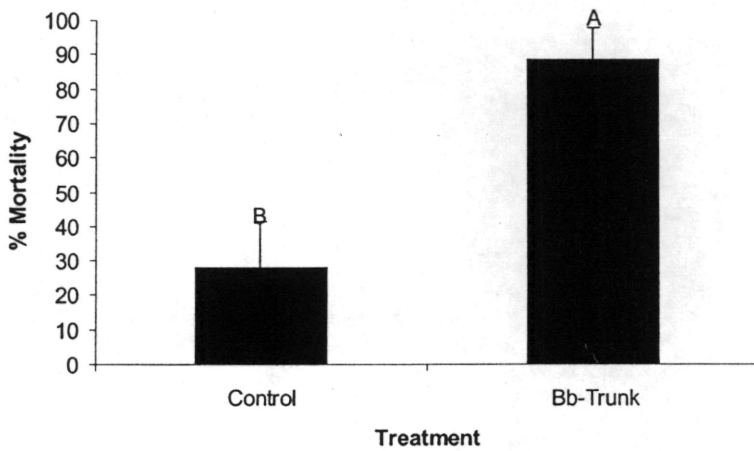

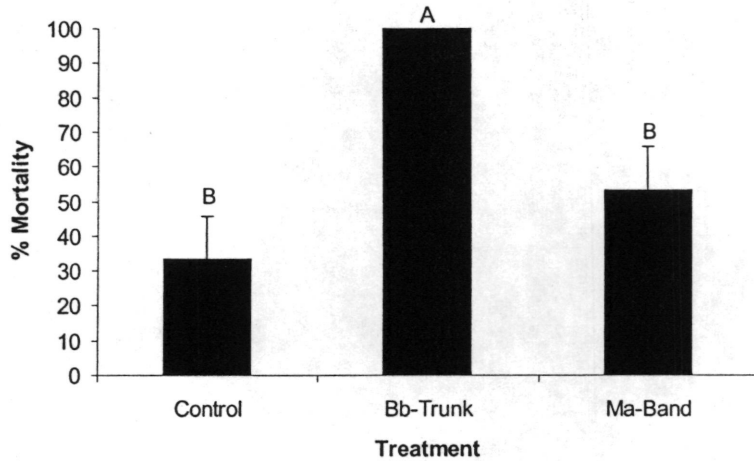

Fig. 5. Pecan weevil mortality in two Georgia grower orchards following application of *B. bassiana* (Bb) sprayed on the trunk or *M. anisopliae* (Ma) as a fungus band stapled to the trunk.
