

## Winter Sprouting Broccoli Twilight Meeting

**Thursday April 8, 2010 from 4-6 pm**  
UNH Woodman Research Farm, Durham NH

- Come check out a new crop – winter sprouting broccoli - that can fill a March-April market window
- See a range of season extension structures (high tunnels, low tunnels, rowcovers) in action
- Network with researchers and other growers about season extension strategies for early spring harvest

*Winter sprouting broccoli, March 2010*

For info or for directions, please call 603-862-3200 or contact Becky Sideman at [becky.sideman@unh.edu](mailto:becky.sideman@unh.edu).
