

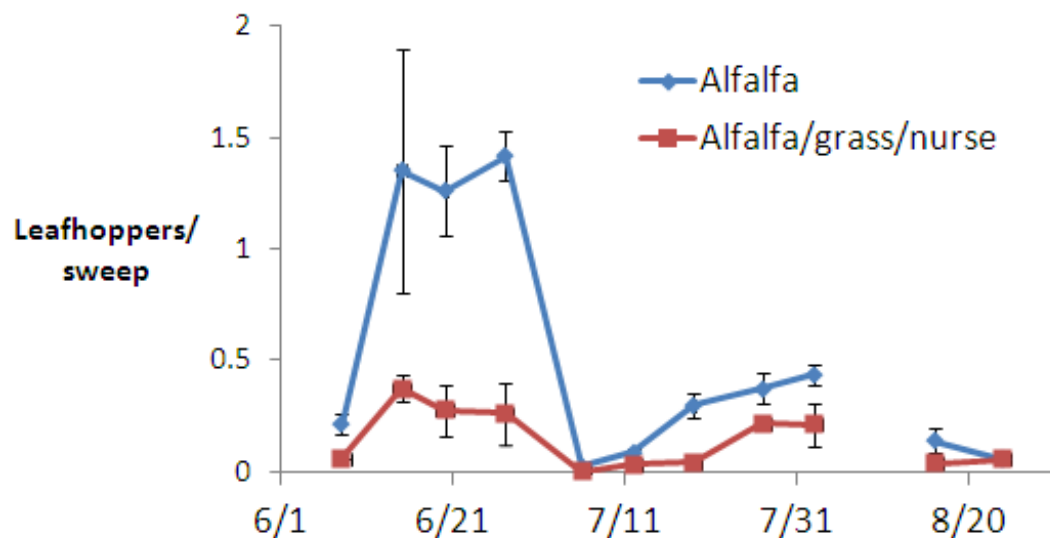

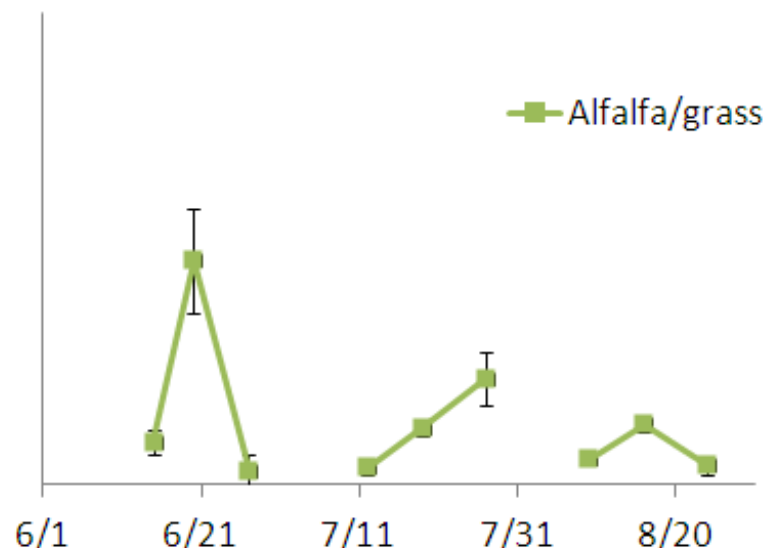

Fig. 10: Potato leafhoppers in 1st and 2nd year stands of the grain and forage rotations.

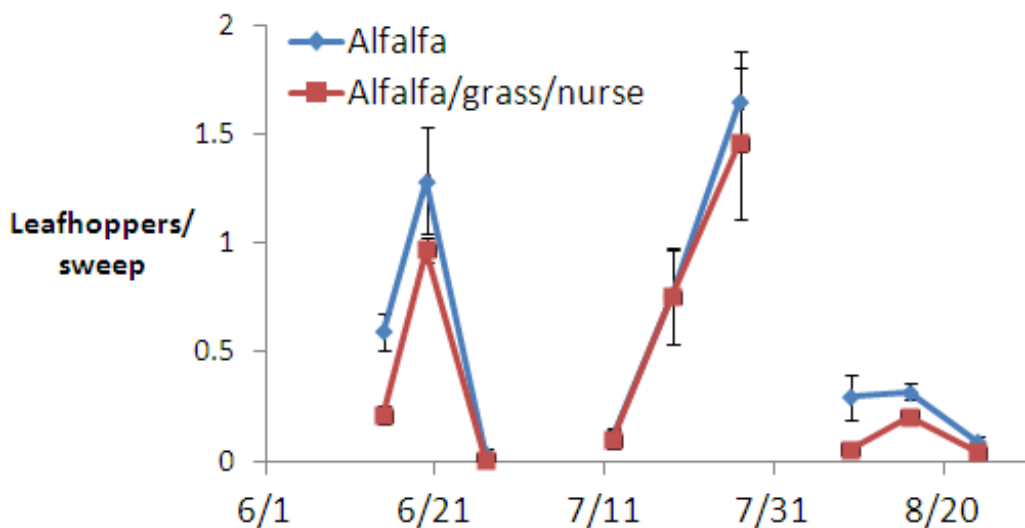

A. Grain rotation (1st year)

B. Forage rotation (1st year)

C. Grain rotation (2nd year)

D. Forage rotation (2nd year)

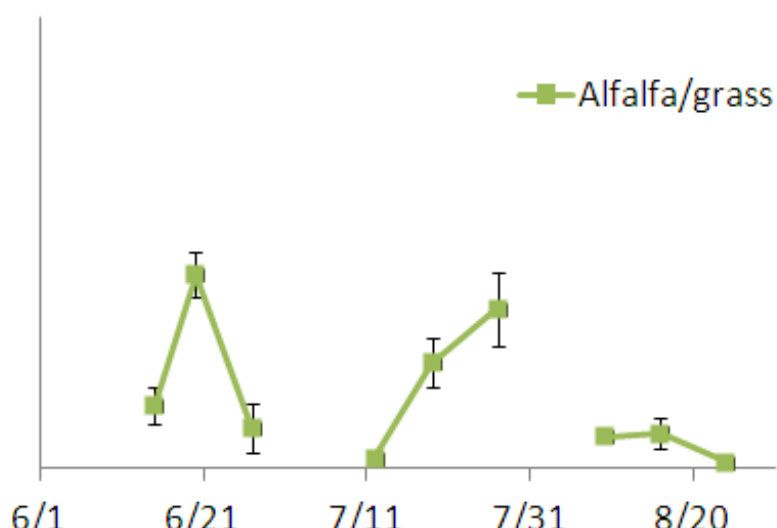

Fig. 11: Cutworm damage to corn seedlings at V5, by rotation.

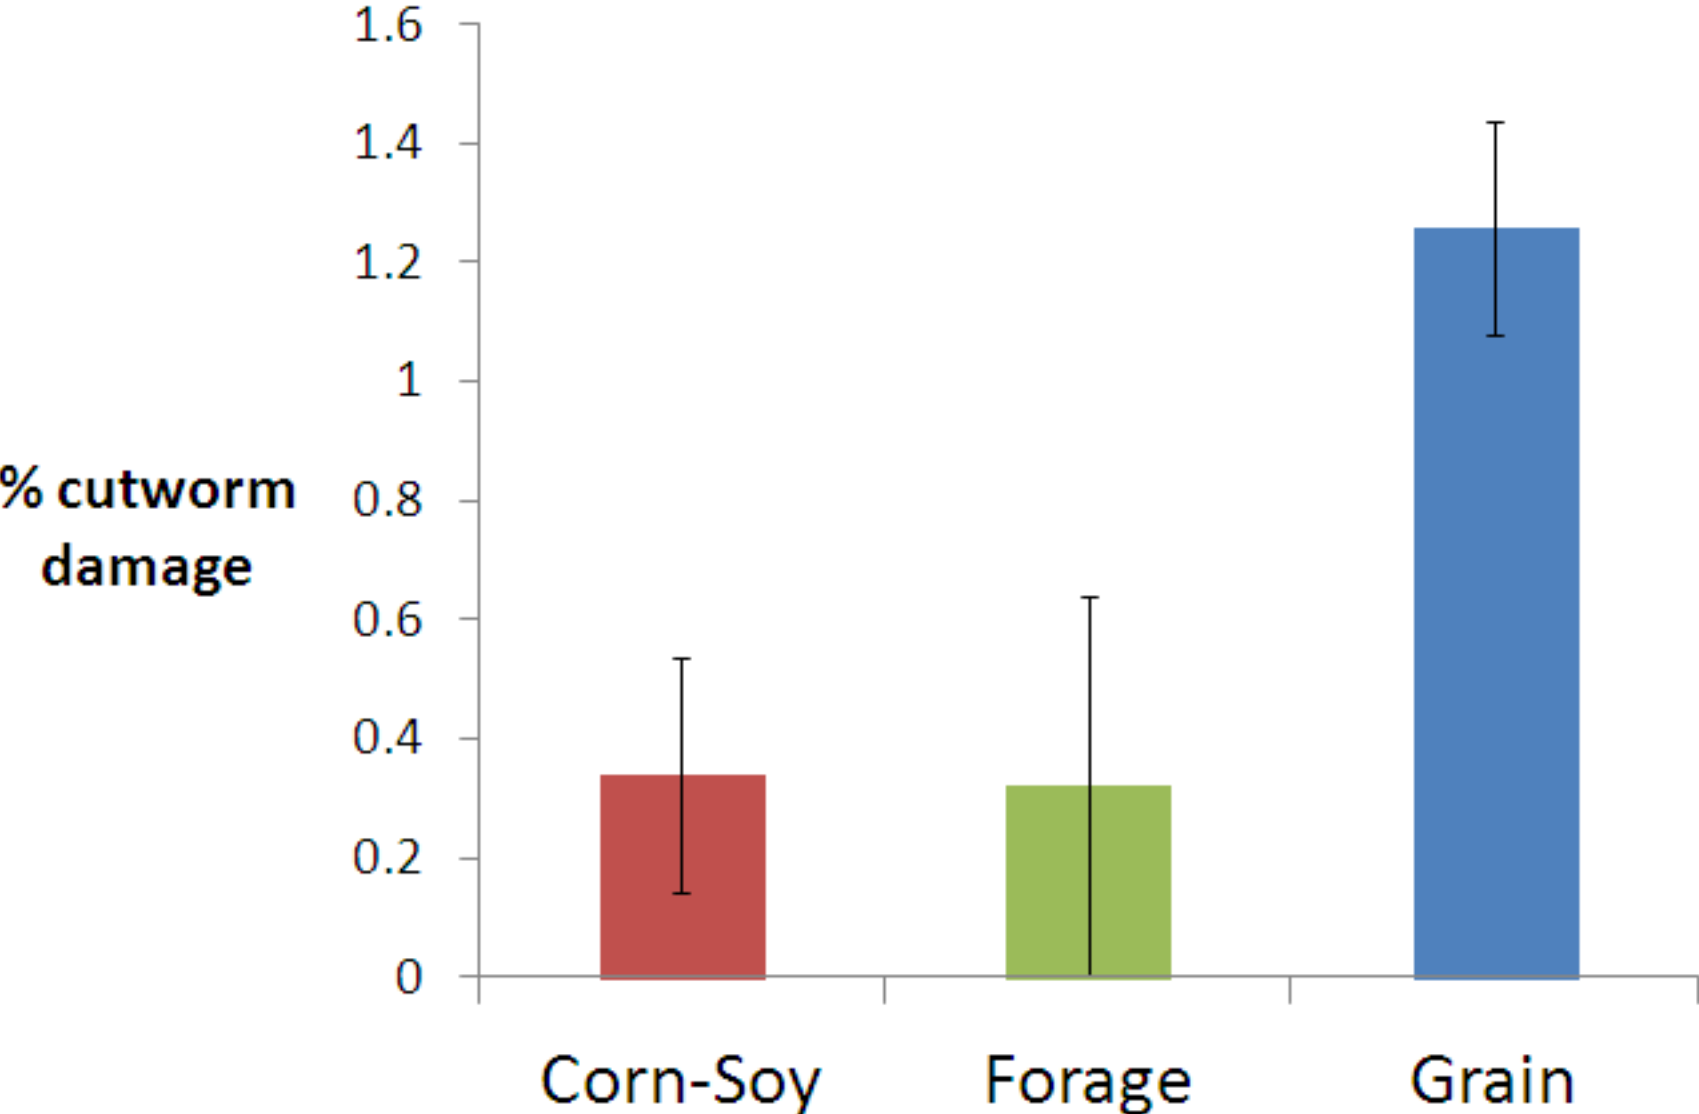

Fig. 11: Cutworm damage to corn seedlings at V5, by rotation.

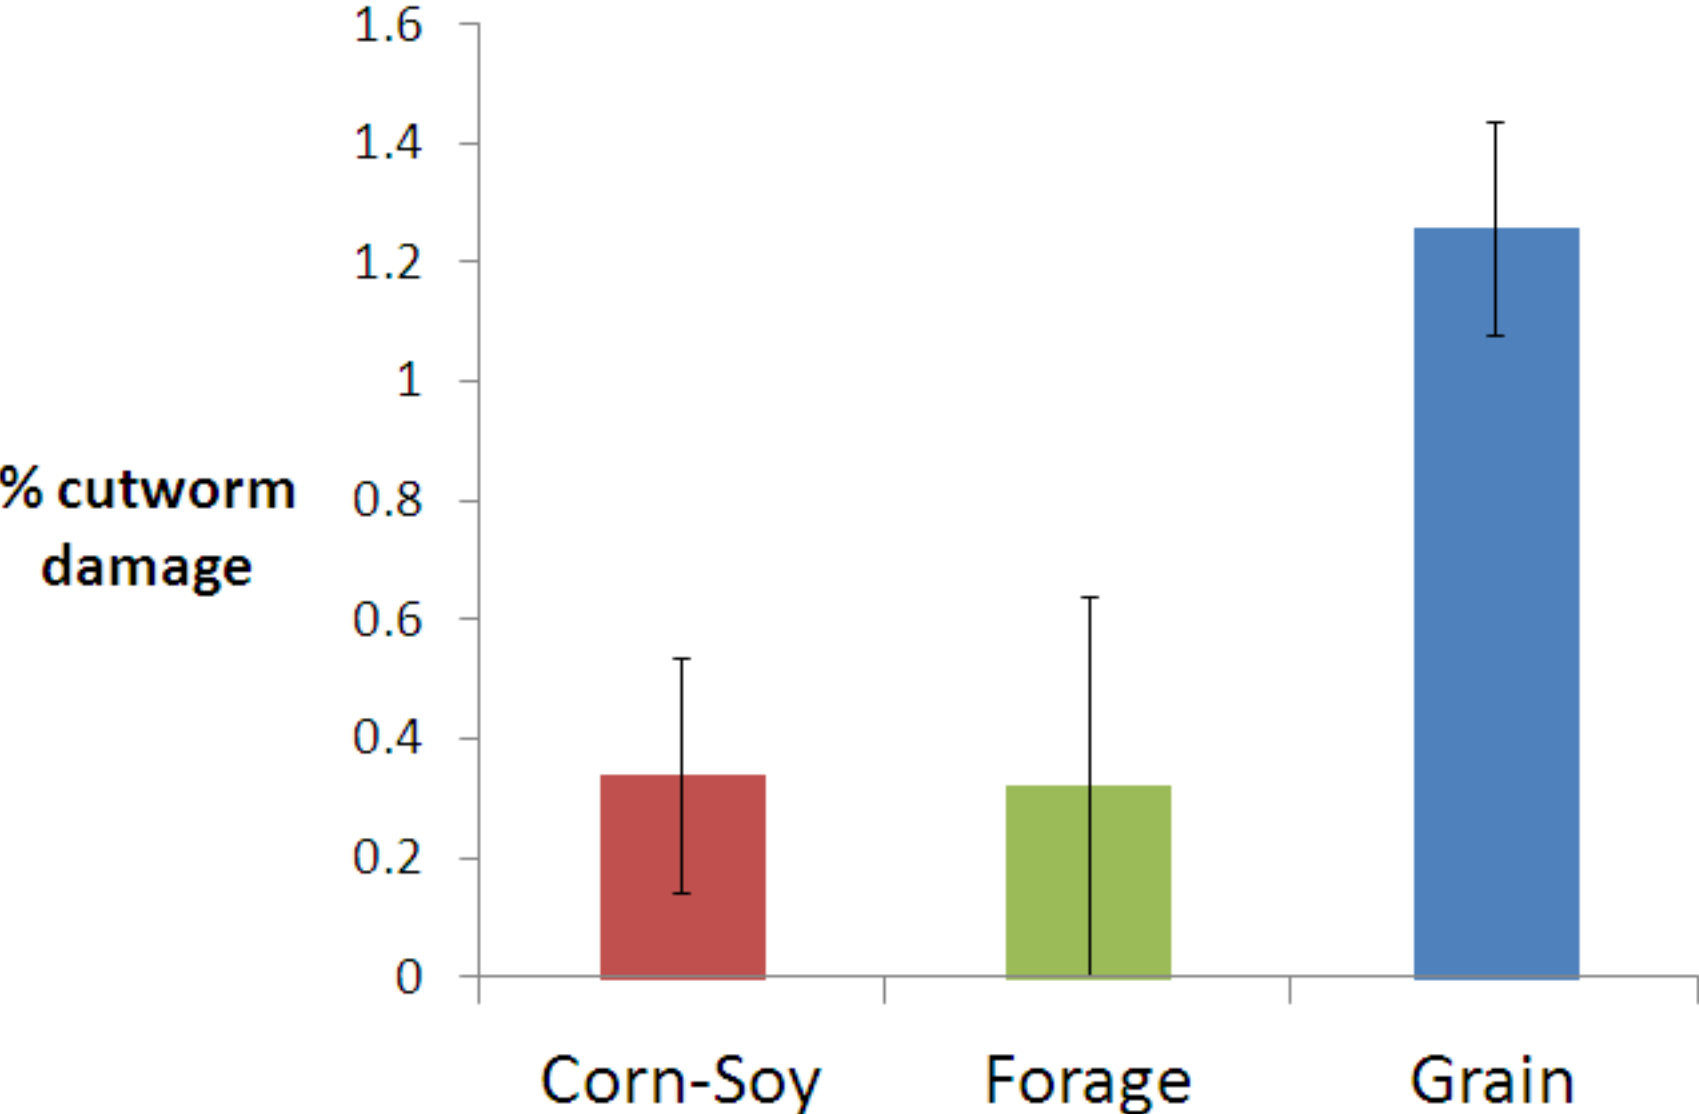

Fig. 12: Corn borer pressure (tunnels/plant) by rotation. Measurements were taken in late August 2011 to capture cumulative corn borer damage.
