

THE GRAZING SCHOOL

AUGUST 2008

Beginning and experienced graziers who would like to learn about the tools and resources needed to develop grazing systems and how to improve animal growth or production through better pasture management are invited to attend a Grazing School to be held as part of the Northeast Organic Farmers Association (NOFA) summer conference on Saturday, August 9th.

The Grazing School offers seven workshops, including a pasture walk at the UMass South Deerfield Farm and Pasture Research Center. All registered conference attendees are welcome to participate in the Grazing School workshops, which include:
