Growing Sustainable Agriculture in SW ND

June 23, 2011

&

August 4, 2011

*Day camps for youth interested
in learning about agriculture
and the environment.*

Growing Sustainable Agriculture in SW ND

Do you want to be outside, have fun and learn?

Register today for the Growing Sustainable Ag Day Camps.

The two day camps will be held with hands on training for youth to learn about sustainable agriculture in southwest North Dakota.

Participants will visit different sites in Bowman County to learn to identify plants, soils, wildlife & sustainable agriculture practices.

- ◆ The camp will give the participants a new perspective on the relationships between our farming and ranching operations and the environment.
- ◆ The camp will highlight how all of the different systems and practices discussed impact one another, the environments, and making a living off the land.

- ◆ The camp will highlight the many careers in agriculture beyond production agriculture.
- ◆ The day camps are open to youth ages 10 to 18 . Class size is limited so register today!
- ◆ Participants will receive a binder with handouts and a plant identification book.
- ◆ Participants will meet in Rhame at 9:00 am the day of the camps and be transported to different sites.

The camp is funded with a grant from NCR-SARE and local sponsorships.

Ensuring the future of agriculture in southwest North Dakota is in your hands.
