Food Producers Information Survey

THANK YOU for taking the time to participate in this survey, which is being conducted by University of Missouri Extension. The purpose of this survey is to gather information that will be used to produce a new line of educational resources for food producers, which includes farmers and value-added* producers.

This survey is intended only for people age 18 or older. Only one person per household should complete the survey.

The information you provide is confidential and anonymous. You may skip any questions you do not wish to answer.

The survey will take approximately 10 minutes to complete.

DEFINITIONS:

"Agri-business" is any business that earns revenues by producing and selling food products

"Value-added" refers to agricultural products that have increased in value due to processing. Examples include: milling wheat into flour, turning tomatoes into salsa, or making strawberries into jam.

"Raw agricultural products" have not been altered from their original state after harvesting. Examples include: whole strawberries, whole un-cracked eggs, and clean, unpeeled potatoes. Raw products also includes live animals.
