Dear Western S.A.R.E. Committee,

As the Agricultural Specialist and Technical Advisor for Agri-Cultura Network's research project on organic pest control methods, I am writing to inform you that this group has completed their project as they had planned in the proposal.

I have reviewed the report and am satisfied with the results and conclusions they have reached. The information they gathered and outreach material they produced will be extremely useful for other growers in the county, and I am glad to have been a part of it.
