

SEASON CREATION

PROFESSIONAL DEVELOPMENT PROGRAM

TABLE OF CONTENTS

Enclosed are the following supplemental workshop materials:

Welcome!

Historic look at Green Edge Organic Gardens and general introduction to the farm, staff, and current standing as a widely recognized organic, specialty crop producer.

Workshop Agenda

Schedule of the day's events and topics to be covered.

An Introduction to Season Creation: The Green Edge Model

Full color printed slides from the afternoon session detailing the basics of Green Edge's site-specific methods of high tunnel construction, seed starting, irrigation, propagation, and cultivation. Also includes information on market strategies and business expenses.

High Tunnel Infrastructure Guidelines

Detailed information on the infrastructure in place at Green Edge necessary for high tunnel growing. Includes sections on soil and amendments, seed starting methods, spacing, and more.

Winter Production Calendar

A working full color calendar of Green Edge's high tunnel crop production during winter and transitioning to spring. Planting, transplanting, and harvesting times listed for many crops.

Workshop Evaluation

Evaluations help greatly with structuring additional workshops, including higher level content for participants looking for specified information not included in introductory sessions.
