# Agroforestry short course

At Dartmouth College

Join us to explore and apply agroecology principles to inform and develop agroforestry plans. Expect a collaborative, co-learning environment where you can share experiences, contribute ideas, and connect with other passionate practitioners

## As a participant you will:

- Attend weekend intensive (Sep 28-29) at based at the Dartmouth Organic Farm
- Receive a site visit this summer at your farm to share ideas about your agroforestry goals for your operation and co-conduct a site assessments including vegetation surveys, soil tests, aerial photography
- Receive up to 100 free trees from the Dartmouth Nursery
- Receive a summary document of ideas and resources compiled throughout the course
- Receive \$250 stipend

**Applications due July 12th**
