April 2024-April 2026	Growout, assessment, selection, tagging, and aggregating of selected	Damon Seawright (PI) Gary Chapman (TA) Bill Wilcox (Hatchery Tech)
April 2025-April 2027	Dissemination of juveniles to aquaponic customers and outreach activities	Damon Seawright (PI) Bill Wilcox (Hatchery Tech)

**Notes:**

1. Due to winter wind damage to our greenhouse, AmeriCulture had to pause its production of families #24 through #42 until the roof repair was complete. Generation 9 family production will resume in late March of 2025. Consequently the end date for generation 9 production was extended to August of 2025 from October of 2024
2. Outreach activities will commence March 17, 2025 at Curve Lake First Nation in Canada. Consequently, the date range for outreach activities was modified to accommodate this change
