

**Farm name:**

**Contact person name:**

**Contact email:**

**Contact phone:**

**Quantity of compost applied:**

**Application rate (ex.: pounds/1,000 square feet) if known:**

**Location of compost applied (be as specific as possible):**

**Date compost applied:**

**Crops grown:**

**How did you apply the compost (eg top dressed, mixed thoroughly, etc.):**

**What anecdotal evidence did you observe, if any, about crop performance in the treated plots:**

**What anecdotal evidence can you offer about the treated soil's physical characteristics (eg visible organic matter, erosion resistance, ability to retain water, compaction levels, etc.):**

**Were you able to apply any research standards to these observations (eg test plots or controls, brix measurements, quantification of yields or pest resistance, vigor, etc.)?**

**Did you conduct any physical/chemical soil tests on these plots?**

**Did you use other treatments such as fertilizers, pesticides, fungicides, etc.**

**If yes, what were they?**

**Would you pay for compost as a soil amendment in the future?**

**Why or why not?**
