

# Evaluation - Conservation Action in NW Ohio

## CAP meeting 2-12-25

Circle Your Answer

I learned new information at the meeting:

12-Strongly Agree    26-Agree    Neutral    Disagree    Strongly Disagree

As a result of this meeting, I will use Soil Health testing in the Future.

11-Strongly Agree    20-Agree    7-Neutral    Disagree    Strongly Disagree

My farm can reduce phosphorus fertilizer application without hurting profit.

9- Strongly Agree    19-Agree    8-Neutral    Disagree    Strongly Disagree

My farm can reduce nitrogen fertilizer application without hurting profit.

6-Strongly Agree    24-Agree    7-Neutral    Disagree    Strongly Disagree

Which Soil Health Test (s) do you feel are useful? (circle all that apply)

25-Haney    18-Microbiometer    4-BeCrop    6-PLFA    14-SAP    20-Tissue Test

5-Solvita (in field)    7-Brix    2-Chlorophyll (SPADD) meter    10- Stalk Nitrate

5-Grain Protein    18- Biomass of Cover Crop

What topics on Soil / Plant Health would you like more information?

Utilize results better, compost extract, how microbes interact with soil

Biomass data over many producers, better educated on conservation topics,

Why-change the way we do things, learn from producers, measure soil health

More soil health, ROI, improve soil, reduce inputs, soil health & biology, resources to educate us
