

Farm Scale Permaculture Design Workshop

Monday May 18th

9am-4pm

@ Charleston Horticultural Society

46 Windermere Blvd. Charleston, SC 29407

Increase your farm or garden efficiency by harnessing your existing resources, reducing time spent on farm tasks, and redeveloping your site layout using basic permaculture design principles. Join [Lowcountry Local First](#) and the Clemson University Sustainable Agriculture Program for this full day hands-on training providing the tools and resources to get landowners started on developing a site plan.

Shawn Jadrnicek, [Clemson Student Organic](#) Farm Manager and permaculture design expert will lead this full day workshop covering the following concepts:

- assessing farm elements
- creating a base map
- addressing drainage
- azimuth and elevation
- personal goals
- needs assessment
- optimal design
- design techniques

REGISTRATION AND COST:

The workshop is offered at no-cost to participants thanks to the support of the Clemson Sustainable Agriculture Program and lunch is available for \$12 per person. Space is limited. Please register [HERE](#).

Please also see attached flyer.
