

Farm name:

Products offered:

Services offered (if any):

What examples of regenerative agriculture do you notice?

Do you notice anything that indicates the farm is profitable, or hear any of the owners/helpers discussing this?

List observations you have about marketing and sales at this farm:

What educational methods (poster, activity, etc) do you notice? Do they deliver information effectively or not; why?

Do you think the farm owners have a high or low quality of life? Why do you think this?

Note any other observations of this farm:
