

Figure 1. Plots of IWG grown for agronomic experiments in Lexington, KY. Seeds were sown in Fall 2023, and first yield estimates were taken in Summer 2024, and will continue through Summer 2026. (a) shows the IWG growing in the no-till field in Spring 2024; (b) shows IWG seed production shortly before harvest in 2024; and (c) shows IWG grain after threshing.
