

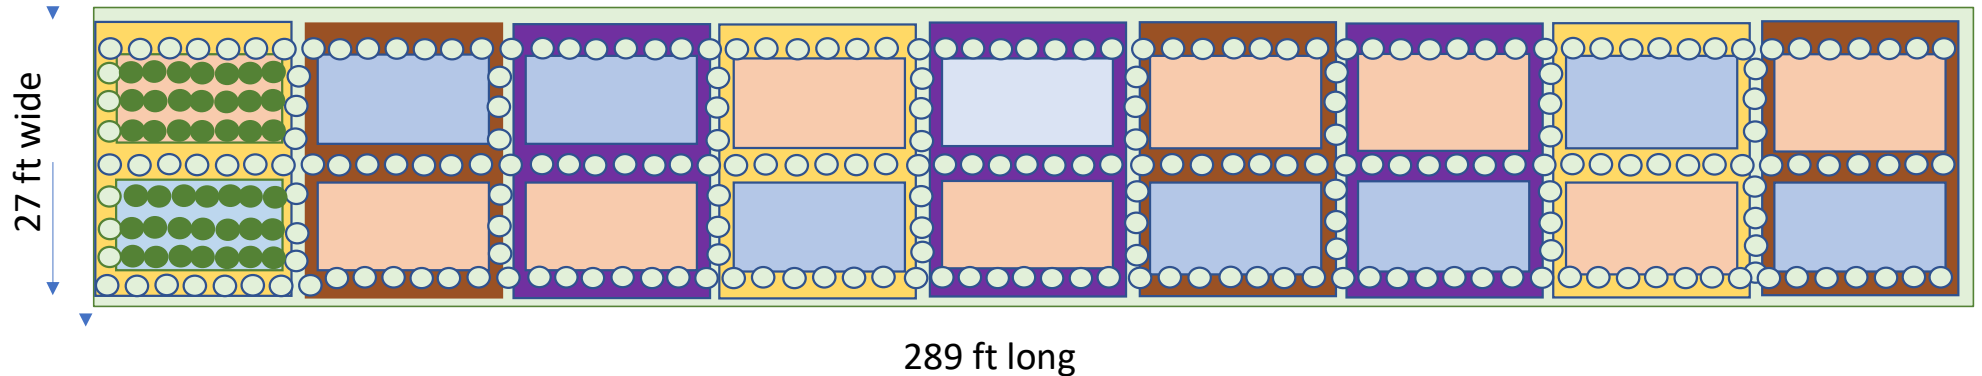

Figure 2. Field Layout of Fertilizer Treatments

(Layout for Expt. 1 and 2 are the same, treatment rates are lower in Expt. 2 with young transplants)

Drainage direction

- Plants receiving treatments
- Buffer plants, no treatments

Treatment factors (color-coded):

Factor A (2 levels): A1 = with compost added

A2 = No compost added

Factor B (3 levels): B1 = Blood meal (12-0-0)

B2 = Black Kaw cow manure (0.5-0.5-0.5)

B3 = Ammonium sulfite (21-0-0)
