I am following up about the upcoming “[Growing Organic Expertise in Iowa](#),” workshop in Cerro Gordo County at the Mason City Public Library next Tuesday, Feb 4, from 9 a.m. to 4 p.m. We hope you can attend and share this information within your network as reminder.

The Iowa Organic Association (IOA) and regional partners will provide information about the National Organic Program, organic certification and transition, organic standards and production practices and insight into current organic market trends and demands. [AGENDA](#)

As the \$50B organic market continues to grow, Iowa producers, landowners and businesses are looking for opportunities to participate in this movement, and the technical expertise and resources to support organic growth in Iowa. This workshop introduces organic and some of the opportunities and resources available to support a growing interest in organic production.
