

re-linking the food chain™

Local Orbit is an online sales platform that allows customers to purchase from multiple local producers in one transaction.

Farmers & Producers aggregate their pre-sold items in one location where it is then available for pickup or delivery in one package.

## **ABOUT LAKE PEPIN LOCAL**

The Lake Pepin Local Food Group's mission is to bring together local food producers and consumers, working to build a sustainable, vibrant and resilient community with economic opportunity and good quality of life for all.

Eat Local,  
Eat Healthy

## **WHAT WE DO**

### **COMMUNITY POTLUCKS**

Since 2015 we've been gathering to share good food and ideas for strengthening our local food system.

### **FARMERS MARKETS**

In 2016 we restarted a local farmers market in Stockholm in conjunction with the Stockholm Stroll every second Friday of the month, May-Oct. We are also exploring farmers markets in other locations along the Great River Road.

### **FARM TOURS**

Potlucks are often held at local farms where we take farm tours and learn about different methods of production

### **ONLINE STORE**

In 2018 we adopted an innovative online sales platform for aggregating produce. Customers can purchase from multiple farms with one transaction; orders are then available for pick up or delivery.
