To Whom it May Concern:

The Association of Gleaning Organizations supports the application of Concrete Jungle for the SARE CFP Food Loss and Waste Training and Technical Assistance grant.

The Association of Gleaning Organizations works to build the capacity of other food rescue entities across the nation to provide healthy food access to vulnerable populations while reducing food waste and connecting communities.

As an innovative and resourceful non-profit, Concrete Jungle has a strong track record of developing fresh ideas to tackle food access issues. We are eager to work with Concrete Jungle to share resources from their "Upcycling On-Farm Food Waste Through Produce Buyers Club Gleaning Initiative and Produce Education and Enjoyment Loop (PEEL) Outreach Program" with our community.

Best Regards,
