

**Figure 1:** Ranches included in this study include two continual grazing (green), one low-intensity rotational grazing grazing (blue), and nine high-intensity rotational grazing (pink) sites near the University of North Texas (Denton, bottom right). The field day will take place at the Josey Pavilion (blue “i”). Images © Google.

**Figure 2:** Sampling methods include (a) passive traps, (b) aerial netting of insects on flowers, and (c) quantifying food and shelter resources via a quadrat method. Images © Elinor Lichtenberg, Kate Wynn, Anha Hubnik.
