

Retail "A"

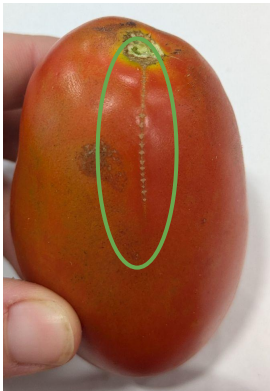

All red or slightly pink fruit

Minimum 1 5/8" across

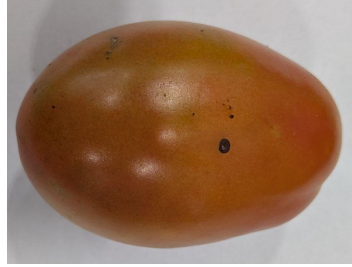

Cases are evenly ripe - pink/orange & red together is acceptable

Zipper scar is less than 1"

"B" grade

Bacterial spot/speck

Dark color spots bigger than a dime (10¢)

Not ripe enough - if you wait they would ripen further and could be "A/Retail"

Zipper scars - too many and too long

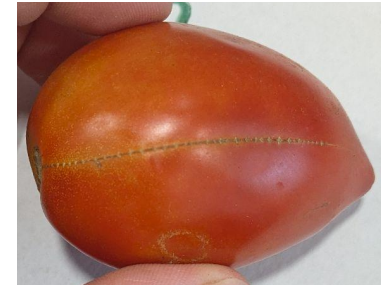

Surface damage/scarring

Healed scars/wind damage

Dent in fruit from resting on stem during growing

Zipper scar is longer than 1"

Damage from harvesting that seems to have healed over

Not Ripe Enough

Tomato still has green spots - wait to harvest/pack until more ripe
