

# Farmers and other land managers: your perspectives wanted!

**\$100 stipend for 60 - 90  
minute conversation -  
in person or Zoom**

**If interested, or for more info:  
tatiana@richearthinstitute.org  
(802) 387-2781**

The Rich Earth Institute is interested in interviewing farmers, horticulturalists, and other land managers to learn your thoughts, concerns and recommendations about the use of fertilizers and soil amendments derived from human urine and biochar made from biosolids on various crops.

- Must be 18 years or older
- We hope to hear from a wide range of farmers and other land managers working with a variety of crops and management types
- All points of view welcome!
- No previous knowledge necessary
- No future obligation or participation involved
