

## **CASE STUDY STRUCTURE:**

- Overview:
  - How much space do you have in high tunnel production?
  - What kind(s) of high tunnels do you have
- Construction/Maintenance:
  - How did you acquire, finance & build your tunnel
  - Orientation, Placement:
  - Repairs required? Type of plastic covering? Do you remove or leave up?  
Replacing plastic.
  - Accessories (vent, blower motor for double wall, etc)
- Production:
  - What do you grow (typically? Vary or stay the same?)
  - Crop rotation, Soil health, cover crop, etc.
  - Weeds, Disease, Pests, Heat, Irrigation
- Benefits:
  - Quantify amount of season extension achieved
  - Increased sales, costs, net profit?
- Outcomes:
  - Challenges?
  - Benefits?
  - What would you do differently
  - What are you happy that you did
  - What advice would you give other farmers
