

Exhibit A

Roughly 3,000 bamboo stakes planted in 2020 along an eroding shoreline in C-173, a wild oyster culture permit area managed by Barrier Island Oyster Co.

These bamboo stakes were planted by members of our crew in 2020 along an eroding shoreline in C-157, a wild oyster culture permit area managed by Barrier Island Oyster Co., and in less than 12 months they had already developed significant bio-accumulation.
