

For reference the evaluation survey asks about the following:

- Motivations for joining/participating in the CoP
- How well the CoP met those motivations
- How well participants were able to gain insights into the set of learning objectives generated for each Learning Session (overall)*
- Satisfaction with: format, content, pace opportunity to collaborate,
- If participants will be able to use or connect with someone or something they learned about
- Future topics, formats, general ideas

saburan

Small Group Discussion

Press “S” key to add a sticky note!

1. Any thoughts you have about the CoP overall?

I did attend a few learning sessions. I benefited from the conversations in relation to broadening my perspective on state and national food systems.

Carrie Elsen

I made it to maybe half of the meetings.

Giselle Bruskewitz

I attended only a few calls/meeting

ilfarm2school

It was helpful to us to not feel so isolated in the work and to know that other groups across the nation were grappling with similar issues.

FARRMS

2. What is one thing you definitely keep, change, or do in the next round?

I appreciated that workshops were recorded and resources made available so we can still benefit if we weren't able to attend live and we can bring resources back to our group.

FARRMS

Connection over farm to school in this meeting is amazing! Love the networking opportunity

Giselle Bruskewitz

Facilitator tools were really helpful! Loved the technology - mentimeter, google drive, mural board, canva, qualtrics, etc.

Giselle Bruskewitz

Guest speakers were great

the evaluation session was especially memorable/ helpful

Giselle Bruskewitz

Our group would benefit from resources on organizational development.

FARRMS

Keep the discussions going. I feel we should focus on:
Policy change
Evidence of what is working.

Carrie Elsen

from Diane: Our schedules were absolutely crazy and we weren't able to connect as much as we wanted. I do believe cross-state connections are very valuable and perhaps an ongoing Google group to keep it going would be helpful..
