

Learn more about it on our website!

www.farmory.org

Grow fish for food, fun or a job!

Aquaculture Technician Program

All it takes is a few hours per week, for 12 weeks!

We can teach you the basics of how to raise, monitor, and work with fish. In our program you will learn about the equipment and systems, and you will gain the skills you need to work with fish in an exciting new job or raise fish you can eat!

FARMORYWORKS

Want to start up a fish business?

Aquaculture Entrepreneur Program

Want to work for yourself and raise fish?

Few things are more rewarding than earning money on your own terms. Aquaculture can be a rewarding business if you do your homework beforehand. This program will help you think through your business ideas and show you how to make them work.
