

Table 4. Soil K fertility across four Florida locations and two years.

| Fertilizer management | Soil K ² (mg kg ⁻¹) |
|--------------------------|---|
| Complete mineral | 21.5 <i>bc</i> |
| Class AA biosolids + KCl | 22.5 <i>bc</i> |
| Minus P | 26.3 <i>ab</i> |
| Minus K | 15.5 <i>d</i> |
| Minus N | 28.1 <i>a</i> |
| Check (no fertilization) | 17.8 <i>cd</i> |

²Data represent means ± standard error (n=24). Means sharing the same letter are not significantly different at alpha = 0.05.
