

Table 4. The number of bee visits at each species of wildflower during the 2024 and 2025 filed seasons. Similar results were observed both years. Spotted Horse Mint (*Monarda punctata*) was the most frequently visited flower by medium-size and large-size bees. The smaller size bees preferred Lanceleaf Tickseed (*Coreopsis lanceolata*).

		2023	2024	2025
Wildflower species	Color	Annual Wildflowers	Annual & Perennial Wildflowers	Annual & Perennial Wildflowers
Spotted Horse Mint (<i>Monarda punctata</i>)	Blue (Violet)	(not present)	200+	200+
Indian Blanket Flower (<i>Gaillardia aristata</i>)	Yellow	25+	25+	25+
Lanceleaf Tickseed (<i>Coreopsis lanceolata</i>)	Yellow	25+	25+	25+
Crimson Clover (<i>Trifolium incarnatum</i>)	Red/Violet	25+	25+	25+
Cosmos Sensation (<i>Cosmos bipinnatus</i>)	White, Red & Pink	25+	25+	25+
Other Flowers	mixed colors	> 10	> 10	> 10
