I am planning on teaching on a basic Introduction to Seed Saving and Botany unit for our local Master Gardener class in 2019, and I will also teach a basic seed class for the Seed Library that will be open to the general public. Plans are in the works to partner with one of our local community gardens to install a seed garden plot. Seeds collected from the seed plot will be shared among the community gardeners and with the Seed Library. I also have plans to update our Seed Library seed intake form with new information learned during this workshop.
