Professionals – Please describe how you are likely to use some aspect of this project for an

If I am the one, I assume that it will be the same description as what you guys teach us what to do.

In the communities cuz by culture.

Some of these are new to me and I can demonstrate for me and others farmers.

I will work with the farmers by doing it, showing examples, inviting people for demonstration, then let them doing it by themselves. Then improvement project following what they learned. 10 or 5 people in each municipality.

In one/more workshop(s). In supervising student projects.

As of now, I was working with the Agriculture and food technology major students. I am really glad that I will take all these informations that I learned this week and teaches to them. (from above on same survey: More than 100 (to share with) until today. I already talked to all my families and relative about everything that I already learn and I am so glad that they really like it.

For me as an Internship Student, I will teach to all people around me that I know, and make sure to delivered the knowledge clearly so it will improve with in the family and communities.

On the end of the third day of training, I went back home and stop at my cousin's house and found out that he was preparing food for his family for dinner. Then I started advising him the way I just learn on food safety and he applied all the things that I said to him. I told me (him) that yes, everything that I said I fully true and he believed it. He said that every word I said should be taught to every people because of

I'm going to demonstrate the facts for people to get the idea and the value.

In community out reach with partners - share the knowledge or use in demonstrations.

Incorporated some of the handout materials into ours we use for training. Some PPT slides also.

It will help me further my skills/knowledge in Agriculture and Food Technology (AFT) Program.

Has anyone got sick from eating food. Because they need to clean their hands before touching or eating food. Mostly important to everyone to prepared that.

How many people do you estimate you will share some aspect of this project within the next 12 months?
