#### Speakers:

***Sandra Menasha***

*Extension Vegetable Specialist at Cornell Cooperative Extension of Suffolk County*

***Justin O'Dea***

*Vegetable and Field Crop Educator at Cornell Cooperative Extension of Ulster County*

#### Program features:

- Integrating brassica cover crops for biofumigation
  - Maximizing biofumigation crop potential
  - What we've learned so far about using biofumigants on-farm in NY
  - Other reasons why NY growers are using brassica cover crops
  - Current research on integrated Phytophthora management in NY
  - Demonstration of the biofumigation process (weather permitting)
- Sanitation, cultural practices, current fungicide programs, and managing fungicide resistance for Phytophthora

***1.5 DEC credits in categories 1a, 10 & 23, have been applied for.***

**Registration:** *Free if RSVP'd by 9/29, \$10 if registering at the event.*

To RSVP call Carrie at 845-340-3990 x311 or send your name, phone number, and email to [cad266@cornell.edu](mailto:cad266@cornell.edu).

This event is supported by a grant from the USDA's  
Northeast Sustainable Agriculture Research and Education (NE-SARE) program.

*Cornell Cooperative Extension of Ulster County provides equal program and employment opportunities*
