

2022 Community Apiary Cohort April 2022 - October 2022

graduated	Name	Birthday	Street Address, City, Zip Code	Race/Ethnicity (select all that apply)	Gender	Education Level	Employment Status	Income	Do you have any related experience?	Why are you interested in beekeeping?	How did you hear about this opportunity?
yes	Jeff Stanley	6/8/1968	8044 Corky Ct E	White, Non His	Male	Masters	Self-employed		Just gardening	To have pollinators for my garden, and to grow my own honey.	White Harvest Farms Community Garden
yes	Ken King	8/7/1959	1436 Nicholson Road, Jacksonville, FL 32207	White	Male	Masters	unemployed	<25,000	I have always loved watching bees in my yard and watching documentaries about them. But I have never worked with a hive.	I have a severe hearing loss that forced me to retire early from my corporate job. I love being outdoors. As a boy I spent a great deal of time on my grandparents farm and always enjoyed working with the livestock and in the vegetable gardens. Beekeeping could offer me a way to spend time outdoors, be physically active, and earn a little income to supplement my retirement.	First coast news
yes	Brierra Mack	2/21/1995	5791 university club Blvd n unit 702, Jacksonville FL 32277	Black	woman	Bachelors	Student, full-time	25,000-50,000	No. However I have experience with gardening and composting. I have a degree in biology.	I will like to have a homestead in the future, once I am able to purchase a home. I will like beekeeping to be part of my self sufficient system.	Email from the organization
yes	Ebony Richardson	4/18/1985	1171 Lane Ave S, 912, 32205	Black	Female/ she	Trade School	full-time	50,000-100,000	No, however I am a volunteer at the WHF community garden.	Learning a new experience, proper care of handling bees and for the liquid gold!	From Mika and WHF
yes	Eshe I-Nesbit	10/4/1980	552 Summer Breeze Dr N, Jacksonville, Florida 32218	Black	Female	Bachelors	full-time	50,000-100,000	No	Interested in career opportunities, personal honey use, and by products of beekeeping.	WHF and Meeka
no	Georgia Brown	12/7/1968	2525 College Street, #1105, Jacksonville 32204	Hispanic Origin	Female	Bachelors	unemployed	25,000-50,000	(As a child) helping grandfather tend his bees & gardening & caring for	1) Pollinators' critical value to the ecosystem and food supply. 2) My interest was sparked by helping my grandfather with his	Your email.
yes	Alex Joins	7/14/1993	949 Wolfe Street	White	Woman	Bachelors	full-time	<25,000	No! Aside from agriculture in general.	I am a farmer! I do not spray any sort of insecticide as I have the utmost respect for our insect collaborators. I would use the skills learned in this cohort to foster a thriving pollinator environment on my land.	On facebook through the duval county water and soil conservation page.
yes	Deidra Mathews	4/5/1984	5934 Copper Lake Drive, Jacksonville, 32218	Black	Female	Associates	full-time	50,000-100,000	Gardening	Health benefits	In Person
no	Alexis Haggerty	3/30/2000	7565 Falcon Trace Dr W	Black	Female	High School or	Student, full-time	25,000-50,000	I have been to a previous beekeeping class by @theherbanbee . I've also volunteered at the community garden.	I would like to learn more about plants from a different perspective and bring this information home. It's important to me to be self sufficient in all ways and to teach my family how as well.	Instagram! @theherbanbee
yes	Nicole Boone	1/26/1979	4566 Clamshell Drive, Jacksonville, 32218	Black	Female	Bachelors	part-time	<25,000	No	To help the bee population.	Through Mika at the Community Garden at White Harvest Farms
yes	Meghan Maly (She/Her)	10/25/1996	1320 Willow branch Avenue Jacksonville, FL 32205	White	Female	Bachelors	Student, part-time, full-t	25,000-50,000	I have no experience in bee keeping. All of my work in the last 4 years has had environmental and field experience. My work experience is as a regulator with the Department of Environmental Protection (current) and with the Health Department. Before my work with State agencies I briefly worked as laboratory technician with mosquitoes for the City of Jacksonville. While getting my bachelor's degree I worked in an algal systematics laboratory.	My bachelor's degree is in Biology and through my course work I learned how amazing bees are, such as their ability to communicate with their "waggle dance" to indicate a nectar source is near. Currently, I am getting my master's degree in One Health with the University of Florida. This degree covers the implications on human, animal, and environmental health from issues such as pollution, toxicology, food health, vector borne diseases, and animal health. A keystone species such as bees not only make up an important ecological niche but also are important for resource sustainability and development, and consequently human health. Since bees are dying in great numbers, I think that places like White Harvest Farms that focus on sustainable farming practices and have their own apiary are incredibly important. This is especially the case when considering the huge public health impact potential. For myself personally as someone who's work is close to human health and the environment, I am so excited to be given the chance to work and become an advocate for bees in my community.	I have volunteered with White Harvest Farms once before so I knew of the apiary, but I saw this posting on Instagram.
yes	Charlotte Flowers	11/8/2002	2073 Sotterley Lane	Black	Female	High School or	Student	<25,000	I have come to a few of the events hosted by Ms. Mika and garden frequently;-)	I want to help the bee population! Colony collapse disorder is a tragedy and I never thought I would have the opportunity to make a hands on impact for the betterment of that issue. I would love to be a part of this mission for the little creatures who make such a big impact in our lives.	Ms. Mika Hardinon @theherbanbee
yes	Jada Harris	4/16/1999	989-2 North Street, Jacksonville FL 32211	Black	Female	High School or	full-time	25,000-50,000	No	I love bees! I love watching bees, reading about bees, and learning about bees! It would be cool to learn more about them & how they operate up close and in real life. And I enjoy being outside.	WHF & The Herban Bee - Instagram
yes	Oranoca Storey	1/29/1980	1720 Brooker Road, Jacksonville, FL 32207	Black	Female	Associates	Self-employed, part-tim	25,000-50,000	No	Want to own my own farm one day	Facebook
no	Trey fields	5/13/1990	14076 mystic lane, 450	American India	Male	High School or	Student, part-time	<25,000	No	I'd like to leave Florida with another skill	Email
yes	Kenneth Williams, Jr.	9/7/1979	1720 Brooker Road, Jacksonville, FL 32207	Black	Male	Trade School	full-time	25,000-50,000	No	Want learn to make honey & keep bees safe	Friend- Oranoca Storey
no	Kenneth Richardson	10/2/1982	1771 Lane Ave S, 912, 32205	Black	Male/he/him	High School or	full-time	50,000-100,000	No, however I volunteer at WHF community garden.	For the experience and to learn how to harvest honey	Mika and WHF
