First choice farm:
Second choice farm:

If there is not space available in either of your two top choices, are you willing to consider an alternative appointment?

References (please provide three)

Name/Institution	Phone Number/email	How do you know this person?

Education: Please list all educational institutions you have attended, beginning with high school. Please attach transcripts from any colleges you have attended.

Institution	Date degree awarded (or anticipated graduation date)	Degree	Major	GPA

Will you be taking this internship for college credit?

If you will be taking this for credit, please provide the name and contact information for the faculty advisor who will be overseeing your internship.

Have you taken any specific courses which you feel may be appropriate to this internship? Please list them.

Do you have experience operating any of the following equipment? If you answer yes to any of the following, please list the extent of your experience.

Chainsaw	
Tractor	
Meat saw	
Motorized vehicle	
Lawn Mower	
Bailer	
Mower	
Four wheeler	
Other farm equipment (please list)	

Do you have a valid drivers' license?

Will you be bringing your own car or another form of personal transportation to the internship?

Do you have any specific skills that might be relevant to the farm(s) you've applied to work with? (Electrical? Carpentry? Marketing? Culinary? Graphic Arts? Writing? Public Speaking? Human Resource Management?)

Please tell us why you would like to participate in our program.

What are your goals and dreams for 10 years from now? 15 or 20 years? How does your participation in the MADE livestock internship program contribute to your attainment of these goals?

We'd like to learn about your background, as well as your specific learning goals for this program. Please consider each of the following topics and tell us 1) your personal experience, 2) classroom or formal training experience and 3) your learning goals and expectations for this program. *It is not necessary that you have experience in all of the following areas, but it is important that you consider each of these elements about grass-based farming. Further, it will help us to cultivate a program that serves you better when you articulate your learning goals.*
