Comments and suggestions:

- Thanks for your diligent, organized work.
- What a unique and professional program, please offer again!
- Not a commercial farmer but interested in gathering info & this was great info!
- convenient to use zoom for presentation. thanks jc
- Always good to see and hear the reality of other farmer's choices, practices, etc. The raised beds were interesting to me as were Michael 's observations about markets, etc.

- Seeing an operation in progress is a real treat. I'm frequently surprised at just how much can be done on a small portion of land. I'm frustrated to hear how much markets hamper farmers in their work, but it's an important lesson/realization---though perhaps one we can figure a way around.
- I would like to learn what grows best on my property- I have full sun, a pond, a lake and woodlands. I'm interested to know how to preserve/dry/store the herbs I grow. Excited to learn, thank you for your time.
