

Advanced Cheesemaking Workshop

Biochemistry of Cultures & Affinage

December 5, 6 & 7th, 9:30am-5 pm

Cornell Cooperative Extension Building,

Front Street, Binghamton, NY

Cost: \$150 for NYS Farmstead and Artisanal Cheese Makers Guild, PASA, and Vermont Cheese Council members

\$225 for all others.

The NYS Farmstead and Artisanal Cheese Makers Guild, in cooperation with Glengarry Cheesemaking & Supply, Vermont Cheese Council, Heamour Farm, Pennsylvania Association for Sustainable Agriculture, and Cornell Cooperative Extension of Broome County are proud to bring **Patrick Anglade**, cheese technician from Centre Fromager de Carmejane to the US.

This is an amazing opportunity for American cheesemakers to hear from a French cheese expert who specializes in Farmstead cheese production. This course will go into details about the relationship of lactic starters and ripening cultures on the final texture, aroma and flavor of the cheese. He will also talk to us about affinage for various cheeses and will troubleshoot cheeses that participants bring to the workshop. Participants can also visit a local cheesemaking facility.

To learn more about the workshop ring Shannon Nichols at 315-893-7616. To register for the workshop ring Linda Smith at 607-829-8852.
