

	S	T
1	general comments	
2	used in veg crop for sod 2-4 yr rotation	
3	planted in Apr plowdown Memorial, disc to kill	
4	bigbee, topcut, multicut main varieties bigbee gets crown rot	
5	plowdown spring planting by Memorial Day, possibly reseeds Kentucky Select, Dixie hardiest	
6	slow start, easier than alfalfa, intense weed pressure could cause failure	
7	does not work as winter annual, most common P cover crop NE	
8		
9	won't compete well if summer sowed, needs mowing to compete in general	
10		
11	full year fallow best use	
12	expensive and hard to find	
13	expensive most widely used winter legume cover crop	
14	planted in spring plow down by Memorial Day, history as spring mulch in Veg industry for early transplants	
15	short term cheap and available	
16	planted in spring plow down by Memorial Day	
17		needs to be plowed down or sprayed
18		
19		used to help Crimson Clover or Hairy Vetch winter over. easier to till than rye
20		decomposes slowly
21		don't pay for certified seed, Marshall hardiest Gulf least (could be better less hard)
22	Kill in early spring	
23		
24		
25		mixture rate rye 56-60Lbs Vetch 20-40Lbs. mow 5/31
