

THE MAGIC & MYSTIQUE OF **COMPOSTING**

AN ALL-DAY WORKSHOP FOR AGRICULTURAL, COMMERCIAL, & INSTITUTIONAL APPLICATIONS

**LED BY RENOWNED LEADERS-IN-THE-FIELD
JIM MARION, DAN GEUNTER, & GEROW SMILEY**

Is composting right for us? How do we get started? Can we expand our current program? Will it save us money? Will it smell?

Come spend a beautiful spring day at Brook Farm Project, at the foot of the spectacular Shawanagunk Ridge, unlocking the secrets to a successful composting program.

Led by three experts in the field, this comprehensive workshop will answer your questions, and offer advice and guidelines for establishing and maintaining a low impact disposal system.

Workshop experts have over 100 years of combined experience in composting for agricultural, commercial and institutional applications, from small scale to large.

THE DAY WILL INCLUDE:

- Discussions on soil chemistry, sources of composting matter, agrinomics of composting, and a comprehensive look at the mechanics of composting
- A focus on each participant's composting needs – techniques differ depending on scale of composting operation
- An on-site tour of the working composting operation that transformed this organic farm
- Extensive question and answer session
- Delicious organic lunch.
- Optional off-site field trip to another working composting facility

TO REGISTER

To register, or for a brochure please email brookfarm@hvi.net or call 845 255 1052. Your \$50 registration fee includes lunch and field trip. More information can be found at www.brookfarmproject.org.

SATURDAY, APRIL 5TH, 9-3PM • BROOK FARM, NEW PALTZ, NY
