

**12 Explain what you did in your outreach program. Please send a copy of any articles written about your project.**

I presented a workshop at the NOFA seven-state summer conference in 2000, complete with color transparencies. The annotated workshop is posted at <http://www.ic.org/agrove/sare99/sld001.htm> . I'm continuing to develop the raised beds created as part of this project and will be publishing and presenting future results.

**13 Include your name and date at the end of the report.**

Doratheia E. Troicke-Green, May 5 2002.
