Chip Martin, Scott McCormick

Thank You
To The Editor:

I would like to thank the members of the Ogdensburg Senior Citizens Association for the wonderful job they did for making our Senior picnic a success on July 18, 2009.

The thanks go to the kitchen staff and cooks who helped prepare the meal and to the servers who served their fellow seniors and the clean up crew.

Also to Price Chopper and Janelle Fisher who went out of her way to make our senior picnic a success and also to John Reed at the Pepsi Company who donated soda to our senior picnic, plus the City Recreation Department who donated the use of picnic tables for the day and five bags of ice, the K of C for the use of their grill and the Starlights for the music. Again many thanks.

Daniel J. Washburn
President of the
Ogdensburg
Senior Citizens Assoc.

'Stuff The Bus'
To The Editor:

The Salvation Army helps many needy school children each year with back packs containing school supplies.

Recycling Process Described At CCE Program On Thursday

CANTON - Today, there are newly developing markets for recycled agricultural plastics. At this time, we hope to keep the material out of our landfills and recreate useful products from this plastic resource. The St. Lawrence County Ag & Farmland Protection Board wrote for and received funding from SARE (Sustainable Ag Research and Education) to facilitate this project.

They are holding a kick-off event to describe the recycling process, from farm to baling site, to recycling facility, and finally to the new user of the recycled product. You are

invited to come to the Cornell Cooperative Extension Offices at 1894 state Highway 68, Canton, on Thursday. They will hold two identical programs to accommodate as many schedules as possible: 10 - 11:30 a.m. and 7 - 8:30 p.m. Refreshments will be provided.

There will be discussion on the best management practices necessary for recycled plastic processing, how to achieve these standards on your farms, how the baling process works, and other logistics for their particular program.

This program is an expansion of the Cornell University RAPP (Recycling Ag Plastics Project).

Your participation in this meeting will provide the tools to help you move ag plastics off your farm in an environmentally and financially sound manner.

If you have further questions, please call 379-9192. Cornell Cooperative Extension of St. Lawrence County provides equal program and employment opportunities.

If you have any special needs please contact our office at 379-9192.

Area News Briefs

County Meeting

CANTON - St. Lawrence County legislators on Monday will consider hiring an attorney to temporarily run the

to handle the office's administrative tasks, such as assigning cases and authorizing payroll and worker vacation time. He said Thursday she no longer is assuming cases and

intoxicated following a traffic stop on Main Street in the village of Potsdam.

She was also ticketed for felony first-degree aggravated unlicensed operation, failure
