

Photo Request and Release Form

Request:

Please share with us the best photographs that highlight your project. Subjects may include researchers in the field, project crops or livestock, field days, education events or landscapes in the research area. We use photos from funded SARE projects on the Western SARE Web site and in program publications, presentations and news releases. We accept slides, prints and digital images (minimum 2.1 megapixels). Write the project number on the top left and date and photo number on the top right of each slide or photo. Also, fill out the requested information for each photo on the Photo Description attached.

Release:

I hereby grant the United States Department of Agriculture (USDA) full and irrevocable rights and permissions for this/these photographs taken or obtained for use by Western SARE. Uses may include (but are not limited to) the Western SARE Web site, publications, news releases and presentations. If a human subject is present as a primary subject in the photo (as opposed to a group of people, for example, at a field day), I obtained his/her consent to be featured.

I agree to these conditions.
