

Photo 1: Interseeding cover crop at Abe Mach's site (08/11/2014)

Photo 3: Mach's Irrigated cover crop small demo (10/29/2014)

Photo 2: Average turnip size at Abe Mach's (non-irrigated area) (10/29/2014)

Photo 4: Average radish size at Abe Mach's (non-irrigated area) (10/29/2014)

Photo 5: Field day at Abe Mach's site (08/21/2014)

Photo 6: Field day at Abe Mach's site (08/21/2014)

Photo 7: Grazing oats/peas at Troy Salzer's. (08/17/2014)

Photo 8: Oats/peas stubble that cover crop was drilled into (08/23/2014)

Photo 9: Cover crop (at Troy Salzer's (11/14/2014)

Photo 10: Cover crop (11/14/2014)

Photo 11: Grazing cover crop at Troy Salzer's

Photo 12: Troy Salzer giving presentation by our project's poster board at Scott Peterson's Field Day (10/15/2014)

Photo 13: Scott Peterson discussing his cover crop at field day (10/15/2014)

Photo 14: Scott Peterson's cover crop. This photo shows mostly areas where the cover crop did not establish well and an area in the top left (darker green) where turnips established well. This was typical through the site (10/09/2014)

Photo 15: Forage scissor clipping Scott Peterson's cover crop. (11/10/2014)
