

Agriculture, Food, and Natural Resources

EXPLORE CAREERS

June 20th, 21st, 22nd, 27th, 28th, 29th
from 1:00-4:30pm

CAREER FIELD TRIP SERIES FOR AGRICULTURE, FOOD, AND NATURAL RESOURCES

18+ Careers

Six afternoons visiting local farms and agriculture industries packed with career experts discussing their careers and what they enjoy about their jobs. Career topics include: plant science, animal science, agriculture technology, agriculture mechanics, agriculture business, environmental services, food sciences, and natural resources.

Sustainable Practices

Each day students will learn about sustainable practices such as beneficial insects, pollinator habitats, cover crops, renewable energy, soil health, wildlife preservation, and more.

Get Outside

Almost all of the experiential tours, learning, and activities will be outside. Come be inspired by agriculture, food, and natural resource careers!
