Paired *t* test results

P value and statistical significance:
 The two-tailed P value equals 0.5422
 By conventional criteria, this difference is considered to be not statistically significant.

Confidence interval:
 The mean of AZOMITE spinach, Aggregate minus CONTROL spinach, Aggregate equals 1.225
 95% confidence interval of this difference: From -3.297 to 5.747

Intermediate values used in calculations:
 $t = 0.6405$
 $df = 7$
 standard error of difference = 1.913

Learn more:
 GraphPad's web site includes portions of the manual for GraphPad Prism that can help you learn statistics. First, review the meaning of [P values](#) and [confidence intervals](#). Then learn how to interpret results from an [unpaired](#) or [paired](#) *t* test. These links include GraphPad's popular *analysis checklists*.

Review your data:

Group	AZOMITE spinach, Aggregate	CONTROL spinach, Aggregate
Mean	46.000	44.775
SD	18.308	18.825
SEM	6.473	6.656
N	8	8
