

# White Harvest Farms

A Clara White Mission Initiative

## COMMUNITY APIARY INTERNSHIP

Learn beekeeping by tending a beehive at White Harvest Farms with guidance from an advanced beekeeper. Internship participants get to take home their beesuits and honey at the end of the season!

Meets one weekend a month. | April 2022 - October 2022

**White Harvest Farms** \$200  
4850 Moncrief Rd Jacksonville, FL 32209

Apply today @ <https://linktr.ee/WhiteHarvestFarms>

## Announcing the Community Apiary at White Harvest Farms

We are now accepting applications for our community apiary internship program on the farm!

We received support from Southern Sustainable Agriculture and Research and Development (SARE) to expand our beekeeping efforts and education on the farm. The Community Apiary is an 8 month internship where students get one on one mentorship with local beekeepers and hands-on experience in their own hive.

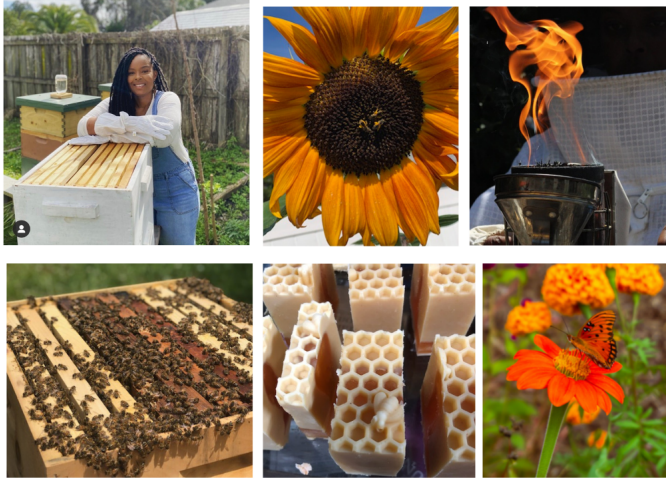

The internship costs \$200 to participate in but it covers the cost of your bee suit which you get to keep, AND - you get to participate in a collective honey harvest at the end of the season.

The internship will cover everything from starting a hive, to growing nectar for your bees to harvesting honey and making products from honey. The program focuses on urban beekeeping and making careers in apiculture visible and accessible in urban areas.

**Program dates: April 16 & 17, May 14 & 15, June 18 & 19, July 16 & 17, August 20 & 21, September 17 & 18, October 15 & 16.**

Saturdays, 10am - 2pm and Sunday, noon - 4pm.

# White Harvest Farms COMMUNITY APIARY

Constant Contact

Cohort meets 14 times and its required to attend at least 12 sessions. Must be 17 or older to participate. Deadline to apply is April 4th.
