Sustainable Agriculture, Research & Education Program Project Reports

- Final Report, CS15-092. How Local Food System Development Affects the Sustainability of Agriculture: The Impact of Farmer-Consumer Interactions on Production Practices
- Final Report, CS11-086. Community Farm and Food Project Phase I – Assessing Needs and Building Partnerships
- Final Report, YENC09-015. Sustainable Greenhouse Production Practices – Hydroponics, Aquaponics, and Growing Food Locally
- Progress report, FNE18-899. Innovation in Community Supported Agriculture through Collaboration with Specialty Producers
- Progress report, FNC18-1127. Investigating the economic sustainability of distribution channels for the urban farmer and consumer in food insecure neighborhoods
- Project Overview, LNC18-414. From the Earth
- Project Overview, LNE19-378. Sensor-Based Precision Irrigation Systems for Tree Fruit and Vegetable Crops
- Project Overview, YENC19-136. Accessible Experiential and Vocational Education through Urban Greenhouse Agriculture
- Project Overview, ENC19-181. Capacity Building in Urban Food Systems in the North Central Region
- Project Overview, LNE19-377. Building Social Sustainability on Farms through Online and In-Person Education
