Myron Thurston III, MBA

Supply Chain Specialist

Cornell Cooperative Extension

121 Second Street

Oriskany, NY 13424

Dear Myron Thurston,

I am writing this letter to confirm my commitment to "Using Tag-Team Training to Foster Education Program Sustainability Among Organizations Teaching Risk Management for Northeastern Farmers" project that CCE Oneida has been granted by Northeast SARE. I feel confident that this program will help the farmers it is setting out to, as well as increase the tools for agriculture service organizations as the program is designed to.

I look forward to fully contributing my expertise as a consultant, offering holistic management trainings at the programs annual retreats. I commit to working with you and farmer speakers and panelists involved at the annual retreats. I commit to providing my skills and knowledge as a whole farm planning educator and as a New York vegetable farmer and business owner of 20 years. I look forward to working with agriculture service providers to add valuable tools to their tool box which in turn will creates behavior changes in farmers, improving the farmer's lives and businesses. Thank you so much.

Sincerely,

Sarah Williford
